RAIZER®

by Liftup

Raizer is a mobile lifting chair that helps people who find themselves on the floor to be up again in just a few minutes. Raizer can be operated by a single assistant and requires only limited physical effort beyond the help of a supportive hand.

Raizer guarantees a safe and stable lift

- It can be operated by just one person.
- Is battery-driven and lifts automatically.
- Ensures an ergonomically correct lift, avoiding overexertion of your back and arms.
- Helps someone who has suffered a fall to an almost standing position in just a few minutes.

- Guarantees the patient a comfortable lift.
- Avoids you having to call for help when working alone.
- You can help the patient quickly and move on to your next task.
- Ergonomic lifting and rapid response can reduce staff sickness absences.

Minimal manual handling

- Easy to transport in two bags or on a trolley.
- Lifting using Raizer requires only a minimum of physical effort.
- Fast and easy assembly (3 min.) right next to the person on the floor.
- Easy to operate in confined spaces.
- Raizer requires only minimal training, so is easy to use for inexperienced personnel.
- Well suited for physiotherapy, for example for to and from the floor during therapy and training sessions.
- Easy to clean and disinfect.
- Fast and easy disassembly and packing (2 min.).

AN EXCELLENT INVESTMENT, BOTH PRACTICAL AND ECONOMICAL

- The Raizer design has colour codes that guarantee fast assembly and disassembly.
- Extra equipment such as a trolley (with stair wheels), a bike bracket and connectable remote control.
- Raizer's size makes it ideal for storage in locations such as corridors just like defibrillators.
- Can be used on all types of surfaces.
- Durable materials guarantee a long lifetime.
- An excellent time-saving investment.
- Savings using Raizer can be documented.
- Contact Liftup for more information relevant to your situation and needs.

- Registered design.

Equal opportunity for all

Liftup designs and develops welfare technology aids based on our values of dignity, safety and equal opportunity for all. As a professional helper, you will see that Raizer ensures stability and safety, and also helps you save time, maintain a healthy working posture, and protects you from overexertion.

At Liftup A/S our principle is to work continually with the innovative development of welfare technology products. Liftup was founded in 2003, and is a wholly privately-owned Danish enterprise.

Aesthetics, design and safety are essential in everything we do within the field of welfare technology. We don't make machines, we make welfare aids that guarantee the dignity of their users.
